License Certification Information

The information on this form is from the records which the Georgia Real Estate Commission routinely maintains on licensees. While the Commission believes that all information on this form is correct, it only certifies (1) the history of a licensee's licensing transactions with the Commission for the five years immediately preceding any written request (2) any disciplinary action(s) taken against the licensee at any time.

Since 1960 Georgia law has required that applicants for any license must score at least 75% correct on all qualifying examinations. Licensee's examination scores are not available from the Commission. Licensees who took an examination administered by Applied Measurement Professionals (AMP) may obtain copies of their scores for a fee from AMP by writing to AMP, Georgia Real Estate Examinations, 8310 Nieman Road, Lenexa, Kansas 66214 or calling 1-800-345-6559. Licensees who took an examination administered by American College Testing (ACT) may obtain copies of their scores for a fee from ACT by writing to ACT, Georgia Real Estate Examinations (82), Contract Services Department, Post Office Box 168, Iowa City, Iowa 52243 or calling (319) 337-1282.

The charts below give information on the examination and education requirements licensees must have met in order to become licensed in Georgia. To use the charts, identify on the attached certification the date the individual became licensed and his or her type of license. In the left hand column in each chart find the time period in which the individual's date of licensure falls and read the column to the right to find what examination and education requirement the licensee has met in order to be licensed in Georgia. If you need further information on the name of the course you took, the date you started, the date you completed, etc., you will need to contact the school at which you took the course.

Issue Dates	License* Type	SOURCE OF EXAMINATION	
		National	State Specific
1/1/26 - 6/30/32	S, A, B, Q	None	None
